HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

IOBC / WPRS

Working group "Multitrophic Interactions in Soil"

Proceedings of the meeting

at

Dijon (France)

June 24-27, 2007

Edited by:
Christian Steinberg, Véronique Edel-Hermann, Hanna Friberg,
Claude Alabouvette and Arno Tronsmo

IOBC wprs Bulletin
Bulletin OILB srop **Vol. 42, 2009**

The content of the contributions is in the responsibility of the authors

The IOBC/WPRS Bulletin is published by the International Organization for Biological and Integrated Control of Noxious Animals and Plants, West Palearctic Regional Section (IOBC/WPRS)

Le Bulletin OILB/SROP est publié par l'Organisation Internationale de Lutte Biologique et Intégrée contre les Animaux et les Plantes Nuisibles, section Regionale Ouest Paléarctique (OILB/SROP)

Contents

Preface i
List of participants iii

Mechanisms involved in spatial and temporal mobility of disease patches caused by *Rhizoctonia solani* in sugar beet field: Induction of antagonists within disease patch
Muhammad Anees, Arne Tronsmo, Véronique Edel-Hermann, Nadine Gautheron, Christian Steinberg 1-5

Take-all decline: An epidemiological analysis
Douglas Bailey, Nik Cunniffe, Philippe Lucas, Marie Gosme, Neil Paveley, John Spink, Christopher Gilligan 7-10

Pythium elicitors in biological control of *Botrytis cinerea*
Kanak Bala, Dalia Rav David, Bernard Paul, Yigal Elad 11-14

Population dynamics of beneficial microorganisms co-applied to seed during drum priming
Amanda J. Bennett, John M. Whipps 15-18

Microbial analysis of soils from avocado crops modified by different organic amendments and its role in disease suppressiveness
Nuria Bonilla, Juan A. Torés, Alejandro Pérez-García, José M. Hermoso, Jorge Gonzalez, David Sarmiento, Francisco M. Cazorla, Antonio de Vicente 19-22

Diversity of *Sclerotinia sclerotiorum* in the UK and variability in germination of sclerotia
John Clarkson, Emily Clewes, John Whipps 23-26

Towards understanding the temporal dynamics of *Allium* white rot: factors affecting the infectivity of *Sclerotium cepivorum* sclerotia
John Clarkson, Anita Scruby, John Whipps 27-30

Antagonistic ability of *Bacillus subtilis* strains against *Fusarium oxysporum* f.sp. *radicis lycopersici*
Constantinescu Florica, Voshol G.P., Validov Shamil, Bloemberg Guido 31-35

Biodiversity and soil quality in agroecosystems: the use of a qualitative multi-attribute model
Jérôme Cortet, Marko Bohanec, Bryan Griffiths, Martin Žnidaršič, Marko Debeljak, Sandra Caul, Jacqueline Thompson, Paul H. Krogh 37-40

Real-time PCR assay for identification and quantification of *Rhizoctonia solani* AG-2-2 in soil
Véronique Edel-Hermann, Marlène Jobard, Nadine Gautheron, Hanna Friberg, Christian Steinberg 41-46

Effect of organic matter on soil inoculum potential and soil suppressiveness to *Gaeumannomyces graminis* var. tritici and *Rhizoctonia solani*
Léon Fayolle, Claude Alabouvette, J.M. Bodet, Christian Steinberg 47-51

Identification of a fungal population associated with soil suppressiveness to *Rhizoctonia solani* diseases in a biofumigated soil
Marie Fiers, Céline Janvier, Christian Steinberg, Véronique Edel-Hermann, François Villeneuve, Claude Alabouvette 53-56

Interactions between bacteria and ectomycorrhizal fungi: what's new?
Pascale Frey-Klett, Aurélie Deveau, Mika Tarkka, Stéphane Uroz, Béatrice Palin, Jean-Claude Pierrat, Francis Martin, Jean Garbaye 57-61

Response of *Rhizoctonia solani* to soil faunal grazing and organic amendments – different from general microbial dynamics
Hanna Friberg, Léon Fayolle, Véronique Edel-Hermann, Nadine Gautheron, Céline Faivre Christian Steinberg 63-67

Synergy of *Brassica napus* green manure and *Trichoderma* seed treatment against *Sclerotium rolfsii* of sugar beet
Stefania Galletti, Pier Luigi Burzi, Eleonora Sala, Simona Marinello, Claudio Cerato 69-72

Contribution of bacteria to the functional diversity of ectomycorrhizas in forest ecosystems
Jean Garbaye 73-76

Differentially expressed genes during interactions in a fungistatic bacterial mixture
Paolina Garbeva and Wietse de Boer 77-81

Induction of systemic resistance by PGPR, a suitable means to consider for managing of cucurbit powdery mildew
Laura García-Gutiérrez, Diego Romero, Houda Zeriouh, Francisco M. Cazorla, Antonio de Vicente, Alejandro Pérez-García 83-86

Ecophysiological Influence of TerralytPlus® on electrochemical soil parameters
Hartmut Heilmann 87-90

Trophic interactions between soil fungi and Collembola
Gloria Innocenti, Maria Agnese Sabatini, Sonia Ganassi , Matteo Montanari, Maria Barbara Branzanti 91-94

Towards indicators of soil health
Céline Janvier, François Villeneuve, Véronique Edel-Hermann, Thierry Mateille, Claude Alabouvette, Christian Steinberg 95-100

Spatial pattern and temporal dynamics of Sclerotium root rot (*Sclerotium rolfsii*) in fall sown sugar beet crops in southern Spain
Rafael Jordán-Ramírez, Rafael M. Jiménez-Díaz, Juan A. Navas-Cortés 101-103

Biocontrol activity of *Collimonas fungivorans* against tomato foot and root rot caused by *Fusarium oxysporum* f. sp. *radicis-lycopersici*
Faina Kamilova, Johan Leveau, Ben Lugtenberg 105-108

Implications of root spatial relationships in young wheat obtained from CT-scanning for an invasion by fungal pathogens
Adam Kleczkowski, Douglas J. Bailey, Wilfred Otten, Margaret Grose, Christopher A. Gilligan 109-112

Phylogenetic analysis of endophytic *Fusarium oxysporum* strains inducing systemic resistance against the burrowing nematode *Radopholus similis* in banana
Andreas Kurtz, Alexander Schouten and Richard A. Sikora 113-118

Influence of Disease Resistant Management Strategies on Genetic and Pathogenic Diversity in Plant Pathogen Populations: Fusarium wilt of chickpea, a case study
Blanca B. Landa, M. Mar Jiménez-Gasco, and Rafael M. Jiménez-Díaz..... 119-122

Compost performances in a turf system
Matteo Montanari , Gloria Innocenti, Sante Scagliarini 123-126

Transformation of *Gnomonia fragariae,* the cause of strawberry root rot and petiole blight, with GFP gene and the study of host infection and colonization
Inga Moročko, Jamshid Fatehi 127-130

Interconnectivity of habitats in soil: combining X-ray micro tomography and thin sectioning to reveal fungal-soil structure interactions
Wilfred Otten, Kirsty Binnie, Iain Young, Jonathan Villot, Dmitri Grinev..... 131-134

Effect of *Glomus mosseae* BEG12, *Trichoderma viride* TV1 and *T. harzianum* T39 on plant growth of healthy and *Armillaria mellea* inoculated strawberry plants under greenhouse controlled conditions
Ilaria Pertot, Federica De Luca..... 135-138

Agricultural practices affect microbial functional diversity, microbial activity and suppressiveness against soil-borne diseases
Michael Raviv, Ido Aviani, Yael Laor, Anat Yogev, Ibrahim Saadi,Rony Cohen, Shlomit Medina 139-144

Consequences of liming on ectomycorrhizal community structure and functioning
François Rineau, Jean Garbaye 145-150

Interaction between *Brassica carinata* seed meal and *Trichoderma* in soil infected by *Pythium ultimum*
Eleonora Sala, Stefania Galletti, Pier Luigi Burzi, Claudio Cerato 151-154

Characterizing defense responses in banana induced by endophytic *Fusarium oxysporum* against the burrowing nematode *Radopholus similis*
Alexander Schouten, Kerstin Schäfer, Richard A. Sikora 155-158

Biocontrol of root-knot nematodes by *Trichoderma* – modes of action
Edna Sharon, Ilan Chet, Meira Bar-Eyal, Yitzhak Spiegel..... 159-163

Root exudates as important factor in the *Fusarium* – host plant interaction
Siegrid Steinkellner, Roswitha Mammerler, Horst Vierheilig 165-168

Operalizing soil quality
Aad J. Termorshuizen, Peter van Erp, Renske Landeweert, Arjan Reijneveld, Roel Staps, Peter Veenhuizen, Petra C.J. van Vliet, Jos Wubben..... 169-172

Saprotrophic basidiomycete *Hypholoma fasciculare* affects fungal and bacterial community composition in colonized wood and soil.
Vendula Valášková, Jaroslav Šnajdr, Pauline K. Gunnewiek, Wietse de Boer, Petr Baldrian..... 173-176

Monitoring of pathogenic and nonpathogenic *Fusarium oxysporum* strains during tomato plant infection
Shamil Z. Validov, Faina D. Kamilova and Ben J.J. Lugtenberg..... 177-183

Lignin enhances mycoparasitism of *Rhizoctonia solani* and *Botrytis cinerea* sclerotia
Sarah Van Beneden, Joachim Audenaert, Greet De Backer, Monica Höfte 185-190

Comparison of four tillage systems in organic farming. Effect of soil structure modification and organic matter repartition on microbial biomass and soil respiration
Jean François Vian, Joséphine Peigné, Rémi Chaussod and Jean-Roger Estrade 191-194

Characterization of bacteriophages of *Verticillium*-antagonists originated from the strawberry rhizosphere
Arite Wolf, Sabine Schulze, Horst Neve 195-199

Selection and partial characterisation of biofumigants for management of *Verticillium* wilt in strawberries
David Yohalem, David Hall 201-206
