Table S1. Prevalence of Age-related Macular Degeneration Lesions* and Ellipsoid Zone Disruption* in the Montrachet Study (*N* = 1135 subjects)

	<i>N</i>	%
Subretinal drusenoid deposits	205	18.1
Drusen	365	32.2
Subfoveal drusen	238	21.0
Confluent drusen	149	13.1
Pigment epithelial detachment	50	4.4
Retinal pigment epithelium atrophy	99	8.7
Subfoveal retinal pigment epithelium atrophy	59	5.2
Intraretinal cystic spaces	80	7.0
Outer retinal tubulation	21	1.9
Subretinal fluid	32	2.8
Subfoveal subretinal fluid	18	1.6
Subretinal material	45	4.0
Subfoveal subretinal material	34	3.0
Ellipsoid zone disruption	177	15.6
Foveal ellipsoid zone disruption	73	6.4

*Defined according to the European Eye Epidemiology (E3) spectral-domain optical coherence tomography classification of macular diseases³³
