**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## Author Correction: A genome scan for milk production traits in dairy goats reveals two new mutations in *Dgat1* reducing milk fat content

Pauline Martin<sup>1</sup>, Isabelle Palhière<sup>1</sup>, Cyrielle Maroteau<sup>1,2</sup>, Philippe Bardou<sup>1,3</sup>, Kamila Canale-Tabet<sup>1</sup>, Julien Sarry<sup>1</sup>, Florent Woloszyn<sup>1</sup>, Justine Bertrand-Michel<sup>4</sup>, Ines Racke<sup>5</sup>, Hüseyin Besir<sup>5</sup>, Rachel Rupp<sup>1</sup> & Gwenola Tosser-Klopp<sup>1</sup> 

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-017-02052-0>, published online 12 May 2017

The Acknowledgements section in this Article is incomplete.

“The authors thank Pierre Martin and all the Capgenes breeding organizations for providing the data and their helpful contributions. This work was supported by grants from French organizations through “PhénoFinlait” (a research program including INRA, APIS-GENE, ALLICE (formerly UNCEIA), CAPGENES and FCEL) and EC (FP7/2007–2013), grant no. 245140, “3SR”, Sustainable Solutions for Small Ruminants (<http://www.3sr-breeding.eu/>). The authors thank all the partners involved. The authors also thank Cécile Albenne for her precious help in enzymology, Stéphane Fabre, Marc Teisser and Julie Demars for their involvement and help with softwares and molecular part, and Aurélie Tircazes for her help with genotype calling. Lipidomic analyses were performed on the Toulouse MetaToul-Lipidomique Core Facility (I2MC, Inserm 1048, Toulouse, France), MetaboHUB-ANR-11-INBS-0010.”
