Submitted on 2 Jun 2020

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Thursday 27 June 2019

19.00	We	Icome Reception
	Frid	ay 28 June 2019
8.30 - 9.00	Opening and Welcome	
9.00 - 9.45	Parturition and caesarean section	in the bitch, evidence and questions (K de Cramer)
	Processation of famala appatic resources in falling spacies (V townseen)	
09.45 - 10.30	Preservation of female genetic resources in feline species (K Jewgenow)	
10.30 - 11.00	Coffee Brea	k and Sponsor Exhibition Puppies Canine amniotic fluid as a new potential diagnostic tool for leptin and oxidative stress detection at birth
11.00 - 12.30	A critical view on the development of breeding dogs from pathologists perspective (A. Gruber)	(Gropetti)
		Doppler ultrasound and fetal heart rate changes in pregnant bitches of different weight groups (Blanco)
	Comparison of radiographic pelvimetric dimensions in Scottish Terriers of different countries (Goericke-Pesch)	Relationship between placental characteristics and puppies' weight in toy and small sized dog breeds (Tesi)
	Spaying dogs before or after the onset of puberty: Different risk for acquired urinary incontinence? (Lutz)	Kitten growth from birth to two months of age: Breed specific curves (Mugnier)
	Gonadectomy of dogs and cats in France: motivations and knowledge of the owners of male and female pets (Chastant Maillard)	Low birth weight as a risk factor for kitten mortailty: determination of breed specific thresholds (Mugnier)
	Dog breeders profile in France - usual practices, maternal care perception and the stress and	Impact of neonatal factors on body condition of Labrador dogs (Mugnier)
12.30 - 14.30	behavioral problem management in peripartum (Santos) Lunch (provid	ed) and Sponsor Exhibition
	EVSSAR General Assembly	
14.30 - 16.00	Genetics and selection of reproductive traits (S. Marelli) Assisted reproduction for felid species conservation – sperm competences at risk (K Mueller)	
	Cat vitrified oocytes culture in 3D liquid marble microbioreactors (Colombo)	Effect of medetomidine and dexmedetomidine administration at different dosages on cat semen quality using Urethral Catheterization after Pharmacological Induction (Cunto)
	Slow freezing or vitrification: which method is better to cryopreserve canine ovarian tissue?	Comparison of the quantification of membrane-intact canine spermatozoa after a fluorescent computer-assisted spermatozoal quantification method, manual counting after nigrosin-eosin staining and manual counting after
	(Apparico) Clinical use of Sperm Chromatin Structure Assay in feline subfertility diagnosis – case reports	CFDA-PI staining (Watts)
	(Prochowska)	ProAKAP4 as a valuable marker to assess sperm quality in Dogs (Bencharif) Different effects of egg yolk plasma and catalase in lecithin and TRIS based diluents on frozen-thawed canine
16.00 - 16.30	Structure of Escherichia coli population in bitches diagnosed with pyometra (Mateus)	spermatozoa (Schäfer Somi) k and Sponsor Exhibition
16.30 - 18.00	Anti-Muellerian-Hormon in small animal reproduction (B Walter)	Behavioural development and behaviour problems in puppies (E Titeux)
	Changes in anti-Müllerian hormone concentrations in queens throughout the oestrous cycle	Suckling behavior of puppies during the first 24 hours of life (Chastant Maillard)
		Cortisol impact on reproductive and behavioral parameters throughout the perinatal period: preliminary results
	(Chotimanukul) Anti- Müllerian hormone concentration in female gray wolf (Canis lupus) – preliminary results.	in dogs (Gropetti) Fatty acid profile of canine colostrum, milk and industrial milk (Chasant Maillard)
	(Ackermann) Anti-Müllerian hormone in young queens: Preliminary report (Faya)	Development of the digestive microbiota in puppies (Mila)
