**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

A detailed illustration of a prehistoric landscape. In the foreground, several woolly mammoths are depicted, some standing and some lying on the ground. A group of cavemen, shown as muscular men with fur and simple tools like spears and clubs, are interacting with the animals. One caveman is seen jumping over a mammoth's back. The background features a dense forest of tall, thin trees under a clear sky.
