Les réseaux sociaux en Recherche : ResearchGate

Pascal Aventurier, Véronique Decognet, Bruno Pierrel

► **To cite this version:**

Pascal Aventurier, Véronique Decognet, Bruno Pierrel. Les réseaux sociaux en Recherche : ResearchGate. Support de formation Infodoc Express (octobre 2014) (Infodoc Express), 2014, pp.64 slides. hal-02794865

HAL Id: hal-02794865

<https://hal.inrae.fr/hal-02794865>

Submitted on 5 Jun 2020

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

ResearchGate et les réseaux sociaux en Recherche

Plan

Un Réseau Social Numérique en Recherche - Pour faire quoi ?

ResearchGate

- Présentation
- Profil de chercheur et d'organisation
- Page d'accueil
- Publications
- Rechercher et partager une expertise/ Collaborer
- Métriques et statistiques de consultation
- Connexion avec autres réseaux

Conclusion

Un Réseau Social Numérique en Recherche - Pour faire quoi ?

Infodoc Express - ResearchGate - octobre 2014

Open Science

Ensemble de pratiques, fondées sur le recours à l'Internet et aux outils du web social, qui touchent l'ensemble de la démarche savante, de la formulation de questions et d'hypothèses à la diffusion des résultats de recherche (Wikipedia)

- Les réseaux sociaux en sont une composante à condition de donner des garanties sur les contenus
 - Voir le programme Open Science dans Horizon 2020 : Open Access et Open Data
- <http://ec.europa.eu/programmes/horizon2020/en/h2020-section/open-science-open-access>

LES RSNR (depuis 2008)

3 fonctions principales

- Trouver des chercheurs/experts
- Trouver des articles pertinents
- Promouvoir ses recherches

Des fonctions secondaires

- Gérer/partager sa bibliographie
- Echanger à travers des groupes
- Valider des écrits (peer-review, co-écrire)
- Partager des informations
- Suggérer des collaborations et participer à des travaux collaboratifs.

[Aventurier, P., Cocard, S. \(2013\). *Les réseaux sociaux pour les scientifiques*. Presented at La science 2.0. séminaire des professionnels IST, Seillac, FRA \(2013/04/09-11\).](#)

Etat des lieux des RSNR

Comparatif de 12 Réseaux en recherche

Academia.edu, Biomed Experts, BioWebSpin, Epernicus, LabRoots, Mendelej, MyScienceWork, NatureNetworks, Researchgate, Vivo, VOA3R, Zotero

- Études des différentes fonctionnalités
- Analyse en Force Faiblesse Opportunité Menace SWOT pour les chercheurs et les institutions
- Identification des réseaux s'appuyant sur l'open access et l'open source
- Pérennité des RSNR ?

[Aventurier, P., Cocard, S. \(2013\). *Les réseaux sociaux pour les scientifiques*. Presented at La science 2.0. séminaire des professionnels IST, Seillac, FRA \(2013/04/09-11\).](#)

Voices from the survey

"It has the potential to be very useful but I don't use it for such particular aim."

TWITTER USER, AGE 25–34, UNITED KINGDOM, POSTDOCTORAL FELLOW

Voices from the survey

"May be ok, but I would rather deal with colleagues and potential colleagues by direct e-mail contact — not through such an intermediary service."

RESEARCHGATE USER, AGE 65 OR OVER, AUSTRALIA, PROFESSOR

Etat des lieux des RSNR

Conclusion du rapport [*If you build it, will they come ?*](#), rapport du Research Information network 2010

- 🌸 RSNR ne sont pas la panacée pour les chercheurs
- 🌸 Mais ceux qui y sont actifs en retirent des bénéfices dans leur vie professionnelle

- Identification des informations utiles
- Rapidité de communication
- Nouvelles formes de collaboration
- « Spark exciting new research »
- Augmentation de la productivité
- Peuvent éviter la surcharge d'information

} Fonction de l'engagement de la communauté

- 🌸 **Conclusion : combiner les outils avec la connaissance et l'expertise de votre réseau**

ResearchGate (RG)

Un réseau pour les scientifiques

-  Réseau pour les scientifiques ([Is ResearchGate Facebook for science? \(Science, juillet 2014\)](#))
-  Réseau social combiné avec le partage de données, des applications de collaboration, une base de données de publications
-  Fondé en 2008 par deux virologues Dr. Ijad Madisch and Dr. Sören Hofmayer, et un informaticien Horst Fickenscher
-  Multidisciplinaire, en langue anglaise
-  Contenu généré sur le réseau accessible en public
-  Contribution limitée aux membres après création d'un compte

RG Réseau multidisciplinaire

Plus de 5 millions de membres en 2014 (30 prix Nobel)
> 3000 membres Inra

RG Modèle économique

- 🌸 **Entreprise berlinoise, régie par les lois allemandes et européennes**
- 🌸 **Différents investisseurs**
- 🌸 **Pas de revente des données des utilisateurs à des tiers**
- 🌸 **Services :**
 - gratuits pour les scientifiques
 - payants pour les entreprises : visibilité plus grande de leur proposition d'emplois
 - perspective : développer un marché payant de produits et services scientifiques

Is there any difference or categorization of Information Technology based on theory?

Like website, ERP, Mobile apps are three different types of Information technology. if we are going to check the usability of ERP. ERP is a software which is mandatory to use by users(employees), As a result frequency of usage is higher which might lead to better usability. In case of a website, usage could be optional by users. Same about eCommerce or eBanking software. Do you think both of the cases, same method of Usability should be followed to differentiate Information technology based on use?

Décembre 2013 : Elsevier demande au réseau Academia le retrait de PDF éditeurs

<http://scienceblogs.com/confessions/2013/12/10/around-the-web-elsevier-vs-academia-edu-vs-researchers/>

Voir aussi : <http://urfistinfo.hypotheses.org/2596>

Recently Elsevier has begun sending take-down notices to Academia.edu for articles that authors have posted where they are in violation of the copyright transfer agreement that the author has signed. Most authors sign such agreements with publishers.

ResearchGate : se base sur le site Sherpa/Romeo (pas de contrôle à priori)

Archiving policy

Permission for authors to self-archive their publications varies between publishers and journals. You can view archiving permissions and conditions based on Sherpa/RoMEO data on each publication page under 'Show self-archiving restrictions'. Here you'll see a classification color. Green means you're generally permitted to add a full-text. You should be aware, however, that in some cases there are restrictions on uploading certain versions of a publication classified green. Blue or yellow means you should check the conditions, and white means that archiving is generally not supported. Some journals also require a URL or DOI link to the publisher's version. We recommend that you check individual publisher copyright policies and requirements before uploading the full-text.

If you aren't permitted to upload the full-text you can send a full-text privately to another ResearchGate member.

RG Indexation dans Google Scholar

Les documents téléchargés dans ResearchGate sont indexés par Google

The screenshot shows a Google Scholar search interface. The search bar contains the text "polyphenol cell wall" and a search button. Below the search bar, it indicates "Scholar Environ 41 500 résultats (0,11 s)". There are buttons for "Mes citations" and a dropdown menu. The search results are listed under "Articles". The first result is "Interactions between apple cell walls and native apple polyphenols: quantification and some consequences" by CMGC Renard, A Baron, S Guyot, JF Drilleau, published in the International Journal of ... in 2001. The second result is "Non-covalent interaction between procyanidins and apple cell wall material: Part I. Effect of some environmental parameters" by C Le Bourvellec, S Guyot, C Renard, published in Biochimica et Biophysica Acta (BBA)- ... in 2004. On the right side of the results, there are two red-bordered boxes containing the text "researchgate.net [PDF] Texte Integral @ INRA".

Reiner Rockel asked a question:
Aeroponic Growing. Has anyone reliable data for the daily water demand (in ml) of crops (tomato, bean, lettuce...)?
There are general figures available of how much less water is required in aeroponics, but I could not find any specific data (in ml) of how much is actually required. At this stage of my research!

Commentaires du reviewer

REVIEWER
 **Kenneth Ka-Ho Lee** ·  43.77 ·  313.55
The Chinese University of Hong Kong Follow

OVERVIEW
 **Non-reproducible**
Methodology · Analyses · References · Findings · Conclusions
Created Mar 13, 2014
Review Contributors: Tommy Lo, Florence Tang, Kenneth Ka-Ho Lee

METHODOLOGY

Are the tools and methods appropriately applied, and are the data correct? No

The methods for generating STAP cells and their maintenance as reported in the paper are very novel. However, the readers would find it difficult to validate some of the findings.

For instant, there are some confusing steps in the procedures and the same confusion was also observed in their recent follow-up publication in "Protocol Exchange" dated 5th March 2014.

Commentaires de différents auteurs après reviewing

COMMENTS (61)

 **Hynda K Kleinman** ·  26.65 ·  98.97 · National Institutes of Health
This paper is on national news today and you are not the only one having a problem reproducing their results. This paper is under investigation. There was talk by one of the authors of retracking the paper.
Mar 13, 2014

 **John Behbahani** ·  12.41 ·  17.71 · Ottawa Hospital Research Institute
Anyone considered using the exact same primers from Dr. Lee's lab for qPCR? It is possible that their primer sequences where incorrect.
Mar 13, 2014

 **Stéphanie Claudinot** ·  20.59 ·  89.48 · École Polytechnique Fédérale de Lausanne
One of the authors (Wakayama) asked for retraction from this paper, as there is a major failure and he also can not reproduce the results.

Is there any difference or categorization of Information Technology based on theory?

Like website, ERP, Mobile apps are three different types of Information technology. if we are going to check the usability of ERP. ERP is a software which is mandatory to use by users(employees), As a result frequency of usage is higher which might lead to better usability. In case of c a website , usage could be optional by users. Same about eCommerce or eBanking software. Do you think both of the cases, same method of Usability should be followed? Is there any term or theory available to differentiate Information technology based on use?

Conclusion

Infodoc Express - ResearchGate - octobre 2014

RG Conclusion, critiques, recommandations

“The more effort you put into maintaining and regularly updating your profile, the more you will get out of ResearchGate”

Utile pour

- Discuter autour des publications (le cœur de l'échange) et en amont (échanges d'idées)
- Découvrir d'autres chercheurs
- Accroître la visibilité des contenus

Masse critique atteinte (nb chercheurs)

- Combien de comptes actifs ? (profils créés automatiquement, mise à jour irrégulière...)
- Beaucoup d'étudiants, de doctorants/chercheurs établis

Spams (paramétrer son profil)

[Forum: Did You Know That Researchgate Is Spamming Your Colleagues \(Perhaps Without Your Explicit Consent\)?](#)

RG Conclusion, critiques, recommandations

 **Téléchargement illégal de documents/droits des éditeurs**

 **Modèle économique et pérennité ?**

→ Déposer en parallèle ses publications dans une archive institutionnelle

 **Rôle de l'Institut (charte de déontologie de l'Inra) ?**

« La liberté d'opinion et d'expression de chacun, y compris à l'extérieur de l'Inra et **sur les réseaux sociaux**, s'applique dans le cadre légal de la Fonction publique, avec une obligation de réserve, de confidentialité et de neutralité, ce qui impose notamment d'exprimer à chaque occasion à quel titre, personnel ou institutionnel, on intervient »

 **Identité numérique (effacer ses traces) et droit sur les publications**

 **Droit et exploitation des contenus**

→ ResearchGate : pas de revente des données des utilisateurs à des tiers
