Dear Kate,

Many thanks for contacting me. You are right, 22 January 2015 is Thursday, sorry for my mistake.

In addition to a recent picture, I would suggest this title for the seminar:

"On the way to human ART: a bovine picture"

Peri-implantation period is a critical step of pregnancy, associated with a high rate of pregnancy failure in cattle and human. Successful implantation not only relies on embryo quality but requires a functional and receptive endometrium. Based on experimental models and molecular analyses run in cattle, I will present recent data that provide new insights about the molecular mechanisms that drive endometrial physiology including the first in vivo demonstration of the biosensor property of this tissue in mammals.

Please, let me know if these few sentences are satisfying. How long will the seminar last?

Regarding the travel, I would be very grateful if you could provide me with your assistance. If expenses for my travel arrangements are too high, I will be happy to contribute.

Kind regards

Olivier

Good Afternoon

Thank you for agreeing to present a seminar at the Clinical Sciences Research Laboratories (University Hospital) in 2015

Our seminar's commence at 12:30 every Thursday, I believe that you will be available on **Thursday 22 January 2015**

I have provisionally marked this within our Seminar Series Calendar and of course if the date is not suitable please do let me know and I can let you know of a more suitable date

I would be most grateful if you could kindly confirm the title of your seminar, along with a brief abstract, of 4 to 5 lines, and a current photograph to allow me to advertise the seminar across the Medical School

Once we have confirmed the date, I can then assist with your travel arrangements, or if you prefer you could book these yourself and claim the expense from Warwick Medical School

I look forward to hearing from you shortly

Kind regards

Kate Bricknell (Mrs)

Dear Jan,

It was a real pleasure meeting, discussing and listening to you last week-end.

I am happy to accept your invitation for giving a seminar at Warwick and I am grateful for your offer to cover travel expenses. How long was your trip to reach Paris from Warwick when we met last week (door to door)?

Regarding potential dates, I must confess that the first Thursday available in my agenda is January 21st 2015. Is it too late for you? I would be happy to discuss with Mrs Bricknell about some dates.

Best wishes

Olivier

Dear Olivier

It was great to finally meet up with you in Paris. As mentioned, I would be delighted if you would be able to give a seminar at Warwick. Our seminars are held on Thursdays at 12.30 h and attended by students, post-docs and PIs and some clinicians. Of course, we will cover reasonable travel expenses and, as you are traveling from France, provide overnight accommodation if more convenient.

Please let me know if you are interested. Kate Bricknell, our divisional administrator, will be able to suggest some dates and assist with the travel arrangements.

I look forward to hearing from you.

With best wishes

Jan
