Life Cycle Assessment in the Agri-Food Sector:
Towards Sustainable Food Systems

Conference date: 1-4 October 2012
Conference venue: Le Palais du Grand Large, Saint-Malo, France
Expected number of participants: 400 - 500
Up-to-date information: http://colloque.inra.fr/lcafood2012

INRA, the French National Institute for Agricultural Research, will host LCA FOOD 2012, the International Conference on LCA in the Agri-Food sector, from 1-4 October 2012. This is the eighth conference in a successful series including Brussels (1996, 1998), Gothenburg (2001, 2007), Horsens (2003), Zürich (2008) and Bari (2010).

This conference is the premier scientific LCA event in the agri-food sector, bringing together key researchers, academics and professionals from public and private institutions. LCA FOOD 2012 will serve as a global forum in which to share recent developments in LCA methodology, databases and tools, as well as applications of LCA to food-production systems and food-consumption patterns. LCA FOOD 2012 is a not-for-profit event.

Approximately 400-500 participants from more than 30 countries are expected to attend LCA FOOD 2012. It is an ideal opportunity to provide your company/organisation with an exceptional level of international exposure for your products and services and to promote your activities in the field of sustainability in the agri-food sector.
