Laurent Garnier. Mendeley : un outil 2.0 pour gérer les publications de l'UMR LAMETA. La science 2.0. séminaire des professionnels IST, Institut National de Recherche Agronomique (INRA). UAR Direction de la Valorisation / Information Scientifique et Technique (1266)., Apr 2013, Seillac, France. 46 p. hal-02807061

HAL Id: hal-02807061

<https://hal.inrae.fr/hal-02807061>

Submitted on 6 Jun 2020

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

MENDELEY:

Un outil 2.0 pour gérer les publications de l'UMR LAMETA

The background of the slide features a grid of researcher profiles from the UMR LAMETA. Each profile includes a small portrait photo, the researcher's name, their affiliation (e.g., Montpellier, France; INRA-LAMETA; Université Montpellier 1), their discipline (e.g., Economics, Environmental Economics, Microeconomics), and the number of contacts they have (e.g., 2 contacts, 17 contacts, 33 contacts). The profiles are arranged in a grid-like fashion, with some overlapping the central text.

PLAN DE LA PRÉSENTATION

- Outil 2.0 et recherche ?
- L'UMR LAMETA
 - Spécificités de l'UMR
 - Valorisation des publications
 - Recherche et réseaux Sociaux
- Mendeley ?
 - Principes de Mendeely
 - Affichage, et valorisation
 - Réseaux, partage et fonctionnalités 2.0 : les groupes
- Le projet
 - Ancien fonctionnement
 - La commande
- Le nouveau Workflow
- Ô mon réseauôôô !
- Conclusion

Web 2.0 et Réseaux sociaux pour la recherche

Web 1.0 - Diffusion

Web 2.0 - Collaboration

- Des réseaux socio pour :
 - valoriser et afficher ses productions
 - trouver et partager de l'information
 - se regrouper sur des thématiques/problématiques communes

Etat des lieux – monde académique

Communautés scientifiques

Figure 1. Ranking of Social Media Based on the Frequency of Use in Academic Communities for Professional Purposes

Source: A. Gruzd et al., 2012

L'UMR LAMETA... ET LE 2.0

Contexte institutionnel

- UMR en Economie regroupant des membres affiliés à quatre institutions :
 - Université Montpellier 1 → **23 ens. Chercheurs** + 1 ITA
 - INRA → **8 chercheurs** + 8 ITA
 - Montpellier SupAgro → **2 ens chercheurs**
 - CNRS → **3 chercheurs** + 5 ITA
- Localisation sur deux sites :
 - le site " Richter " au sud de Montpellier, dans les locaux de la faculté de sciences économiques
 - le site " SupAgro ", au nord de la ville, sur le campus Montpellier SupAgro.

Contexte gestion des publications

- Dans ProdInra →
 - les chercheurs positionnés sur les axes de recherche INRA : 13 personnes en tout (38% des chercheurs et ens.chercheurs)
 - → 8 chercheurs INRA : (22 % des chercheurs de l'UMR)
- Avant ce projet : base locale pour recenser toutes les productions de l'UMR
 - Pas de module d'édition de référence
 - Non partagée
 - Affichage des références sur le site web
 - Saisie de donnée par la documentaliste localisée à l'Université UM1
 - Alertée, par les membres de l'UMR, lorsqu'un article est acceptés

Pratiques

- 8 chercheurs inscrit dans Research Gate
- Actions de valorisation encouragées par la direction de l'UMR :
 - Mise à jour régulière des pages perso sur le site web LAMETA
 - Création d'un profil dans REPEC, l'archive ouverte en économie

Auto-valorisation : pages perso LAMETA

The screenshot shows a web browser window with the URL www.lameta.univ-montp1.fr/spip.php?article193. The browser's address bar and tabs are visible at the top. The website header features the LAMETA logo and the text "Laboratoire Montpellierain d'Economie Théorique et Appliquée". A navigation menu on the left includes links for "English Français", "Présentation", "Thèmes de recherche", "Membres", "Annuaire", "Productions Scientifiques", "Séminaires", "Intranet", "WebMail", "Economie expérimentale", "Agenda : Réunions, Séminaires ...", and "Espace collaboratif". The main content area is titled "Articles publiés" and lists nine articles by Blayac Thierry, dated 10 septembre 2012. The articles are numbered 1 through 9, each with a brief description of the work and the journal or publication it appears in. The bottom of the screen shows a Windows taskbar with various application icons and the system clock indicating 17:21 on 07/04/2013.

Pratiques d'auto-valorisation ?

- Présentation au journées du LAMETA :
Visibilité sur Internet de l'UMR LAMETA :
stratégies et pratiques des chercheurs
- Cette étude a nourri la réflexion que nous
avons menés sur le projet Mendeley

Auto-valorisation : les pratiques

En conclusion

- Un recensement de la totalité des publications de l'UMR impossible via ProdInra
- Une base de données en locale qui permet le recensement et l'affichage sur le net des publications de l'UMR
- Des pratiques d'auto-valorisation hétérogènes
- Très peu de présence sur les réseaux sociaux de recherche
- Un soucis d'être reconnu par sa communauté : archives ouvertes REPEC

Mendeley : principes et spécificités 2.0

Principes : logiciel bibliographique

- Collecter et gérer les références bibliographiques
 - des documents nécessaires pour la rédaction de bibliographies
 - de ses **propres travaux**, pour les valoriser.
- Automatisation
 - de la collecte et de la saisie des références collecter sur Internet (Sc direct, Springer, Web of Science, Econlit, Repec, Google Scholar),
 - du rapatriement et de la saisie des pdf localisés sur votre ordinateur
 - de la mise à jour de vos publications sur la web
 - de la rédaction de vos bibliographies (Word, Open Office, LaTeX, Lyx,...)

Principes : 2.0 & réseau sociaux

- Logiciel téléchargeable gratuitement mais non libre (propriétaire).
- Double interface : données sur son poste et dans le « Cloud »
- Web & réseau : Gérer et partager les références bibliographiques, afficher ses travaux, se regrouper par affinité

MENDELEY : LES FONCTIONNALITÉS 2.0

The screenshot displays the Mendeley 2.0 web interface. At the top, the Mendeley logo is on the left, and a navigation bar contains 'Dashboard', 'My Library', 'Papers', 'Groups', and 'People'. The 'Papers' tab is highlighted with a red circle. To the right of the navigation bar, there are links for 'Welcome back UMR LAMETA', 'My Account', 'Upgrade', and 'Invite colleagues / Support'. Below the navigation bar, the user profile for 'UMR LAMETA' is shown, including location (Montpellier, France), research field (Economics), and a list of publications. The 'Publications' section is divided into 'Journal Article (197)', 'Book (1)', and 'Conference Proceedings (1)'. On the right side, there is a '11 Contacts' section with a grid of user avatars and names, a 'Public Groups' section listing groups the user is a member of or following, and a 'Destinations' section with a map of Montpellier, France.

Bargaining over a climate deal: deadline and delay

by P Courtois, T C C Null Tazdait

Abstract

Assuming that a North-South transfer is the key to effective climate cooperation, we ask when and how much the North should offer to the South in return for a commitment to reduce deforestation and forest degradation. In light of the risk of irreversible damage over time, we examine a negotiation with a deadline. In this case, the North threatens the South over a negotiation deadline in case an agreement is not reached rapidly. We assess the conditions for an agreement to be immediate or delayed, and discuss those situations likely to result in negotiation failure. Despite the risk of irreversible damage over time, we show that cooperation is likely to be delayed and we identify situations wherein the North and South do not reach an agreement within the deadline. Although Pareto-improving, cooperation may collapse because of inefficiencies related to incomplete information. What's more, we show that in negotiations with a deadline, uncertainty about the benefits deriving from cooperation and the irreversibility of the damage that will be caused if cooperation is delayed are the two key components affecting choice. 2011 Springer Science+Business Media, LLC.

PARTAGER AVEC MENDELEY (1)

- Une richesse de contenu : + de 381 millions de références à rappatrier !
- Un moteur de recherche en mode avancé

The screenshot shows the Mendeley web interface. At the top, there's a navigation bar with the Mendeley logo and the name 'MENDELEY'. Below this, there's a search bar with the text 'Papers' and a search button. The main content area displays a search result for 'sustainable development' by Charles Figuières. The result includes a title, author, and a brief description. There are also links for 'Save reference to library' and 'Related research'. The interface is in French and English.

Dashboard My Library Papers Groups People

Search: "sustainable development" author:figuières

Advanced search

Une breve analyse economique orthodoxe du concept de developpement durable. (A Brief Economic and Orthodox Analysis of the Concept of **Sustainable Development**. With English summary.)

Charles Figuières, Herve Guyomard, Gilles Rotillon in *Economie Rurale* (2007)

A sustainable development meets the needs of the present without compromising the ability of future generations to meet their own needs. The authors focus on the relationship between this concept and the use of...

- En parcourant les profils...

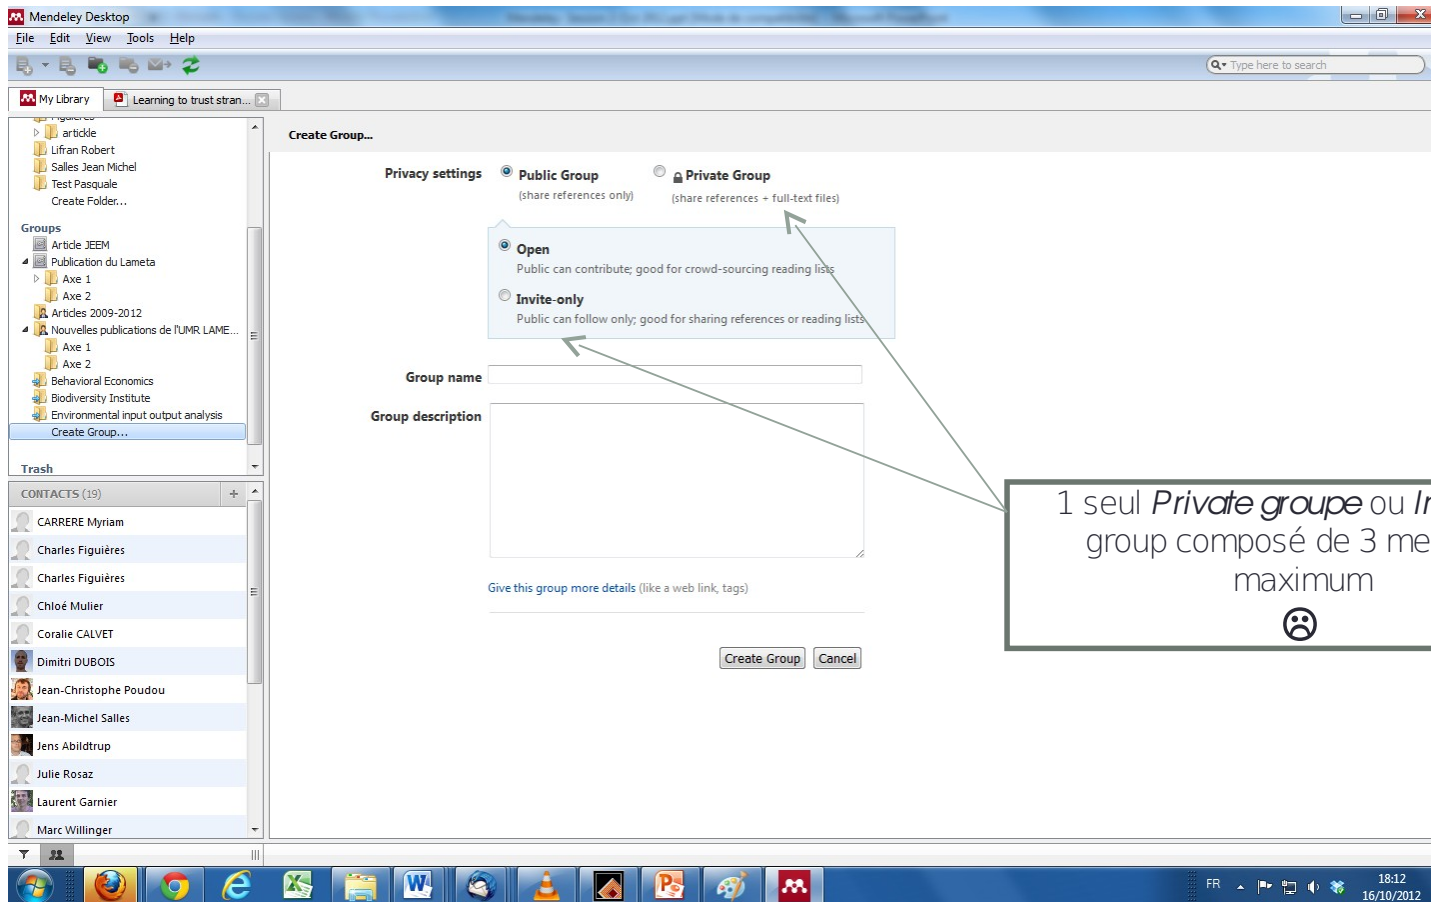

The screenshot shows the Mendeley interface for a specific paper. At the top, there are navigation tabs: Dashboard, My Library, Papers, Groups, and People. A search bar is also present. The main title of the paper is 'La modélisation économique peut-elle aider à préserver la biodiversité ?' by Jean-michel Salles. Below the title, it indicates the paper is in the 'Economics' category, specifically 'Environmental Economics Papers'. On the right side, there is a green button labeled 'Save PDF to library' and a 'Share' button with social media icons. A callout box with the text 'Récupérer ou partager' (Retrieve or share) has arrows pointing to these two buttons. On the left, there is an 'Overview' section with a 'Related research' tab. The paper's details include the year (2013), page count (27), and a note that it is available from Jean-Michel Salles's profile. Below this, there is a section for 'Authors on Mendeley' featuring a profile picture and name for Jean-Michel Salles, identified as a researcher at CNRS - LAMETA, with 20 contacts listed.

- Service de messagerie : notamment avec ses contacts

The screenshot shows a 'Send Documents' dialog box. It has a title bar with a question mark and a close button. The main content area is titled 'Send these documents by e-mail'. It lists three documents: 'Introduction to Modern Economic Growth', 'Rents, Competition, and Corruption', and 'Fairness and Redistribution', followed by 'and 2 more'. Below this, there is a 'To' field with a dropdown menu showing 'RA'. A list of contacts is displayed below the dropdown, with 'Raphael Soubeyran' and 'Raphaële Préget' visible. A callout box with the text 'Envoi de plusieurs références (et pdf)' (Sending several references (and pdf)) has an arrow pointing to the list of documents. Another callout box with the text 'Plusieurs destinataires. La saisie des contacts aisée' (Several recipients. Easy contact entry) has an arrow pointing to the contact list. At the bottom, there are 'Cancel' and 'Send to 0 contacts' buttons.

PARTAGER AVEC MENDELEY (1)

- Les groupes : une fonction bridée
 - le partage des pdf dans les groupes : très réduit !

Le Projet

- Départ à la retraite de la gestionnaire de la base des publications du LAMETA
- Obligation de changer le mode de fonctionnement du recensement et de l'affichage des publications de l'UMR
 - Opportunités pour améliorer le partage des publications de l'UMR en interne et en externe, l'affichage sur le web et de recensement des publications ...mais avec une personne en moins.
 - Sensibiliser les chercheurs sur la valorisation de leur travaux (suites des J ournées de l'UMR LAMETA)

Objectifs fixés dans le cahier des charges

- recenser de manière exhaustive tous les travaux effectués au sein de l'UMR
- faciliter l'analyse qualitative et quantitative de cette production,
- éditer des listes bibliographiques de tout ou partie de cette production,
- communiquer sur les nouvelles publications en interne,
- communiquer sur les nouvelles publications en externe en alimentant la page web « les publications de l'UMR LAMETA »,

Déroulement du projet

- Cahiers des charges + comité de pilotage
- Choix du logiciel
- Tests → 9 testeurs dans l'UMR
- Session de formations
- Fin de la saisie dans l'ancienne base → 9 novembre 2012
- Corrections et transfert de l'ancienne base dans Mendeley
- Déploiement : 1^{er} février

Choix du logiciel

- Dans le cahier des charges : contour de l'outil et première liste (Endnote, Zotero, Mendeley, Jabref)
- Valorisation + partage + Gratuité = Zotero ou Mendeley
- Mendeley choisit pour :
 - L'affichage , la valorisation et les aspects « réseaux social »
 - La prise en main
 - ...des regrets sur les fonctions de partage (Zotero + performant)
 - ...Mendeley Institution : pas adapté

Les Formations

- Les testeurs (copil) : → réalisation des tests
 - 8 participants (Chercheurs, Doctorants, Ingénieurs)
 - 2 sessions de 2h
-
- Les Chercheurs et les enseignants chercheurs
 - 28 participants pour trois personnes ou en solo
 - 11 session de 2h

Reprise des anciennes données : AERES 2013

- BASE PHP transfer en excel → ednote → Mendeley
- Guide de saisie
- MOO
- Création du Groupe « Nouvelles publication de l'UMR LAMETA »

Un nouveau workflow

Mendeley + LAMETA = nouveautés

- Création d'un profil UMR LAMETA qui affiche les publications de l'UMR.
- Le profil Mendeley du chercheur remplace les pages perso LAMETA.
- Saisie succincte de ses nouvelles publications (et /ou se servir de l'automatisation pour la saisie).
- Signalement des nouvelles publications au documentaliste via le système de messagerie intégré.
- Partager au sein du groupe « *Nouvelle publication de l'UMR LAMETA* » recensant toutes les publications du LAMETA

Préalables

- Avoir téléchargé le logiciel
- S'être créé un profil Mendeley
- Être « l'ami » de *UMR LAMETA*
- Avoir copié « le code » de son profil dans la page perso du site

Un nouvelle production ?

Le chercheur la signale sur son profil Mendeley

- Saisie semi-automatique ou manuelle
- Une saisie partielle ...avec des règles
 - Revue : titre + auteurs + revue
 - Chapitre : titre + auteurs + Ouvrage
 - Ouvrage : titre + auteurs
 - Communication : titre + auteurs + lieu date + nom événement

Le chercheur l'envoi au gestionnaire du profil UMR LAMETA → messagerie Mendeley ... (et Dashboard !)

Valorisation au niveau individuel....

Biographical Information

No biographical information added yet.

CV

No CV information added yet.

L'activité sur le profil

- 95% des chercheurs affichent une liste de publications
- Les chercheurs signalent sur leur profil les productions les plus marquantes...
- ...mais plus de 25% ont mis toutes leurs publications (→ Colloque, rapports, Working papers)
- Autre activité :
 - Près de 50% des chercheurs ont renseigné la rubrique CV,
 - Plus de 65% ont indiqué leurs coordonnées.
 - Plus de 50% ont mis leur photo
 - Aucun groupe créé
- 1 chercheur cache son profil (°_o) !!

L'UMR en contacts

- Nombre de « Contacts » : de 1 à 33 contacts (→ 13 en moyenne)
- Principalement des Contacts entre membres de l'UMR
 - Les contacts extérieurs ne représentent que 6% des contacts noués
 - Plus de la moitié des membres n'ont aucun contacts hors UMR
- Un seul chercheur semble avoir une « démarche contacts » : 1/3 des contacts hors UMR (→ professeur reconnu dans son domaine)

Conclusion

- Initié dans un contexte difficile (réduction d'effectif)
- Soutenu par la direction de l'UMR
- Bien accueilli par les membres de l'UMR
- Visibilité accrue de l'UMR
- Une démarche originale : collaboration et partage
- Premier outil commun aux deux sites (UM1 / Supagro) et aux quatre institutions
- Heure de vérité : échéance AERES
- Des chercheurs encore peu sensible aux apports des réseaux sociaux pour la recherche
- Instabilité et avenir du logiciel Mendeley
