**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

# Improve knowledge on Epizootic diseases

## WP3.2: Education

Objectives of the WP:

- Organisation of **training activities and workshops** within and outside the network,
- Exploitation of **distance learning systems** for the dissemination of training courses employing among other tools, the E-platform established by the consortium.
- Feasibility of the development of an **integrated education network** with partners already involved in teaching activities.

### Main deliverables during Years 2007-2008:

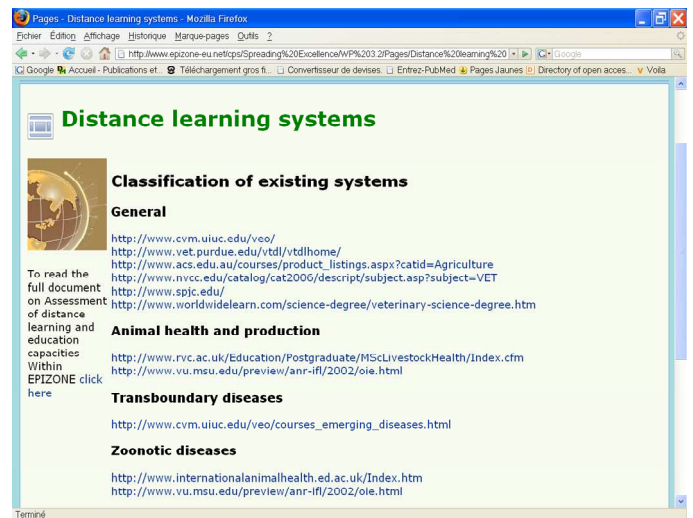

- 3 workshops on avian flu and classical swine fever
- 8 short-term training missions for 10 persons (both scientists and lab technicians)
- Web-page with interesting e-distance learning systems

#### ■ The EPIZONE participants:

- IAH Pirbright (John Bashiruddin & Chris Oura)
- CVI (Jitty Oosterga-Land, Wim van der Poel & John Bongers)
- VET-DTU (Mogens Madsen)
- CIRAD (Emmanuel Albina & Christophe Dalibard)

#### ■ Possible contributing Universities:

- Wageningen & Utrecht Universities
- Montpellier
- VET-DTU
- RVC

#### ■ Most important deliverable to be achieved in the next years:

- Building a **European education network on epizootic diseases**
- 4-5 key EPIZONE participants
- Partnership with **Universities**
- Starting with an **international Master**
- Link with young scientist mobility and **YOUNG EPIZONE**
