**Correction to: *BMC Genomics* 21, 566 (2020)**  
<https://doi.org/10.1186/s12864-020-06972-6>

Following the publication of the original article [1], it was reported that the correct image for Fig. 1 was missing. The correct Fig. 1 is provided here and has been added to the original article.

Furthermore, Table 2 was missing the indication of which values indicate non differentially-expressed genes (i.e. genes with  $-1.5 < \log_2FC < 1.5$  and/or adjusted  $p$ -value  $\geq 0.05$ ).

The original article has been updated.
