HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Correction: A parsimonious approach for large-scale tracer test interpretation

Vincent Bailly-Comte^{1,2} · Séverin Pistre³

Correction: Hydrogeology Journal (2021) 29:1539–1550
<https://doi.org/10.1007/s10040-021-02327-x>

Equation (10) should be corrected to:

$$m = \frac{\ell Q C k}{R V p}$$

Where the added V [$L T^{-1}$] represents the (microscopic) flow velocity, as defined earlier in the paper.

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
