HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Block neutral models of Biodiversity to support Forest Management — Research questions

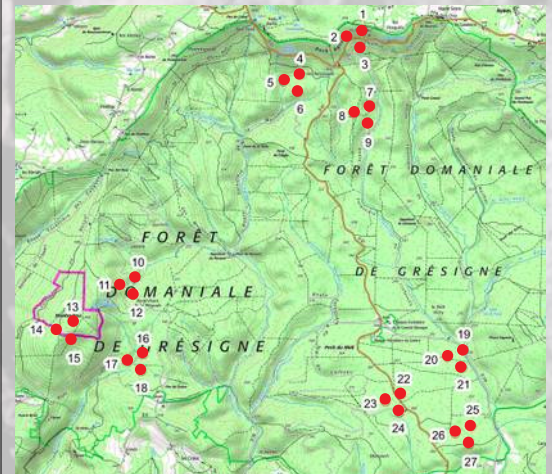

Does tree basal cavities biodiversity harbour a repeatable **functional structure** in space ?

Environmental DNA sampling

COI and ITS1 barcodes

If so, at which **spatial scales** does such structure arise ?

Fractal sampling design

Tree basal cavity

Can we handle these scales in an **integrative management** framework ?

Predicting management impact on cavities

Questioning the role of new technologies

Involved research units :

and UR EFNO
