HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Searching for optimal sampling design for landscape-scale biodiversity surveys

F. Laroche

SFE²-GFÖ congress, November 22nd, 2022

Assessing the spatial structure of biodiversity

Conflict with other monitoring objectives when sampling

Could fractal designs make a compromise ?

Using an optimal sampling design approach on a toy model

Fractals are Pareto-optimal strategy when XXX

Adjusting the sampling extent make fractals useless

Fractals could help disentangling processes occurring at different spatial scales
