HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

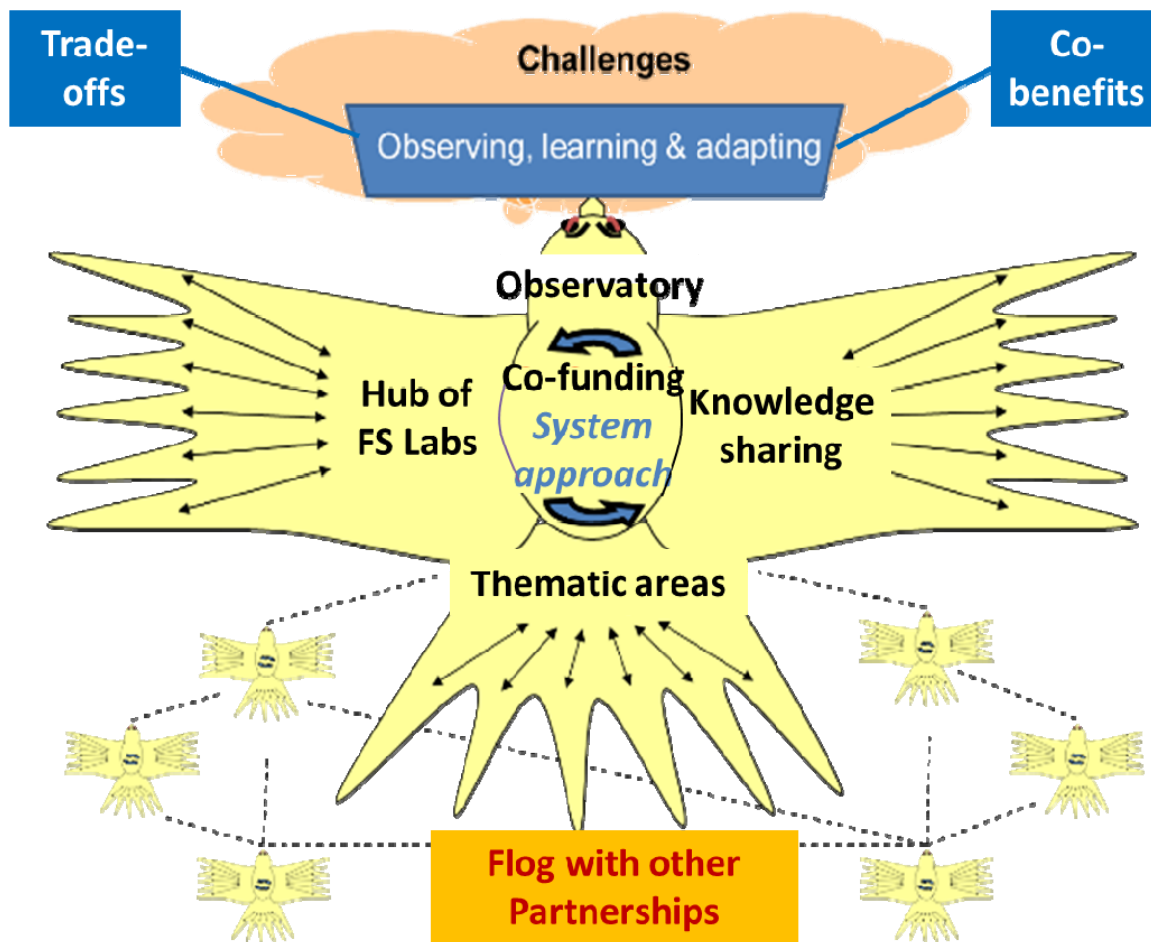

The European Partnership on Sustainable Food Systems allows globally exchanging on co-benefits and trade-offs of food system approaches.

Multi-scale orchestration of food system approaches is the only sensible way to reach sustainable food systems, globally and locally

An EU Partnership SFS is not inclusive if the rest of the world-players are absent

4 Activity areas (figure)

4 Thematic areas:

Change the way we eat

Change the way we process & supply

Change the way we connect

Change the way we govern
