Submitted on 13 Mar 2024

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

EOSC-Life : Build the Life Science European Science Cloud

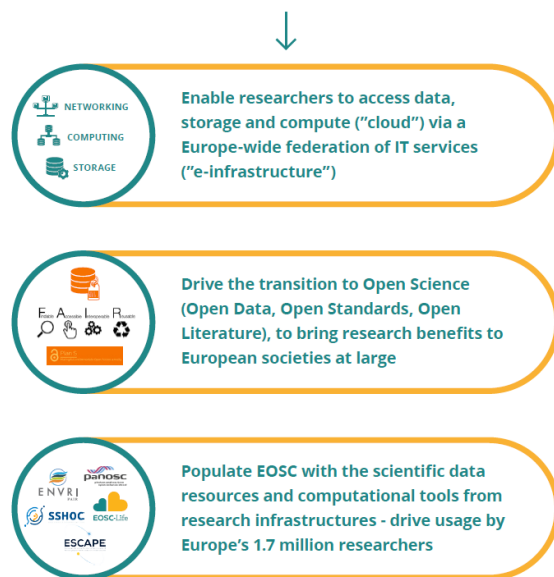

A-F Adam-Blondon, deputy head of ELIXIR-FR, INRAE

EOSC-Life in a nutshell

- Started in 2019 – ends in 2023
- 13 ESFRI in Life Sciences, 47 Partners and 17 linked 3rd parties
- 26 M€
- Two WPs added in 2020 in response to the COVID-19 crisis

European Open Science Cloud

E-Infrastructure consolidation

Scientific Communities' content and users

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 824087

(Unexpected) Use cases to drive the activities of EOSC Life

EOSC Life partners and solutions were quickly mobilized to:

- foster collaborations: International COVID-19 Biohackathon + Cloud resources
- Frontloading of open tools and workflows: <https://workflowhub.eu/> , <https://usegalaxy.eu/>
- Build a repository for COVID-19 clinical trial data
- Extension of the COVID-19 Data Portal: <https://www.covid19dataportal.org/>

Populating the EOSC with Data

- **FAIRsharing EOSC-Life collection** with more than a 100 of datasets : <https://fairsharing.org/3513>
- **Provenance standard for life science data** (ISO 23494) describing all the history of the data, including sensitive data and compliant with the Nagoya protocole + EML technical implementation

GENERAL INFORMATION

EOSC-Life
EOSC-Life

Type: Collection

Registry: Collection

Description: More than 100 diverse data resource updated or added to this collection by

Organisations: [EOSC-Life](#)

ELIXIR CONVERGE : upscaling the support to research data management

- 2019 – 2023
- 5M€ + 4M€ pour 3 WP COVID 19
- Complement/in synergy with EOSC Life

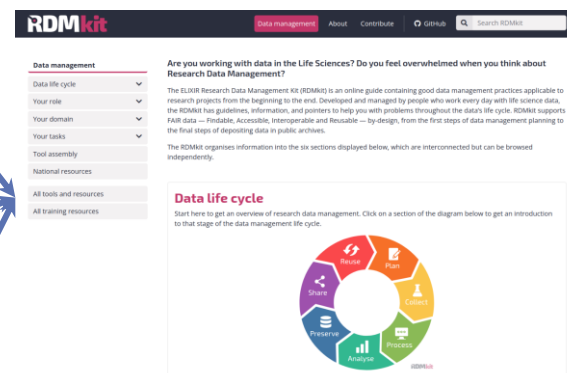

ELIXIR-Converge has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 871075.

- Major outputs:
 - ELIXIR RDM community
 - RDMkit: collaboratif knowledge portal in support to Data Management Planning

<https://rdmkit.elixir-europe.org>

RDMkit

Pool the expertise of the community for the community

TeSS

Packaging tools and workflows for use in the cloud

- **WorkflowHub**
 - a registry of scientific workflows to make them more findable
 - Adoption par Australia BioCommons
- **RO-Crate**
(<https://www.researchobject.org/ro-crate/>)
 - formalize packaging of research data with structured metadata (including provenance) using schema.org.
 - Integrated in workflowhub and Galaxy.
 - Adopted by projects/infrastructures to create FAIR digital objects (e.g. DISSCO SYNTHESIS +, Biodiversity Genome Europe)

- Cloud deployment and cloud resources + identification of suitable providers for sensitive resources

- Providing access: **LS LOGIN** system
- Connecting, informing and training users

EOSC-Life has received funding from the European Union's Horizon 2020 programme under grant agreement number 824087.

Thank you!
